CHEEPURU VASU DEV

Cybersecurity Student | Aspiring Ethical Hacker
Andhra Pradesh, India · vasudevcheepuru@gmail.com
LinkedIn: linkedin.com/in/cheepuru-vasu-dev-418641407 · GitHub: github.com/dev-igris

PROFILE

B.Tech CSE (Cyber Security) student interested in ethical hacking, network security, vulnerability analysis, Linux, and responsible security testing. Building practical foundations through coursework, tools, and controlled learning labs.

EDUCATION

B.Tech — Computer Science and Engineering (Cyber Security) | Avanthi's Research & Technological Academy | Expected June 2027 | CGPA 7.9

Intermediate — MPC | Sri Gayatri Junior College, Vizianagaram | March 2023 | Score: 852/1000

SSC — Class X | ZPH School, Dattirajeru, Vizianagaram | March 2021 | CGPA 9.6

TECHNICAL SKILLS

Programming: Python, C, JavaScript, SQL

Web: HTML, CSS

Security tools: Kali Linux, Nmap, Wireshark, Burp Suite, Metasploit, John the Ripper, Hydra

Databases & systems: MySQL, Linux, Windows

Foundations: Networking, ethical hacking concepts, vulnerability assessment, basic penetration testing

LEARNING PROJECTS

Network Analysis Lab — Practicing authorized host discovery and basic service enumeration with Nmap; inspecting packets and network protocols with Wireshark.

Web Security Learning Lab — Learning HTTP request/response inspection with Burp Suite and exploring common web security concepts in controlled training environments.

CERTIFICATIONS & COURSES

- Infosys Springboard — Cyber Security and Applied Ethical Hacking
- Infosys Springboard — Mastering Ethical Hacking
- Infosys Springboard — Hands-on Web Penetration Testing with Kali Linux
- Infosys Springboard — Mastering Kali Linux
- Qubitech — Quantum Computing
- NPTEL — Artificial Intelligence

ADDITIONAL LEARNING

Exploring network security tools and cybersecurity concepts. Interested in promoting safe internet practices, strong passwords, and awareness of suspicious links and malicious emails.
